EDUCATION

B-Tech(computer science and artificial intelligence)

Sri vasavi engineering college -7.5

Intermediate

Sri chaitanya junior college -86%

OBJECTIVE

Computer Science student specializing in Artificial Intelligence with a strong foundation in Java , Problem Solving. Experienced in developing academic projects involving machine learning concepts and software development. Passionate about building AI-driven applications and solving real-world problems using efficient algorithms and modern technologies.

TECHINICAL SKILLS

Programming languages — Java | Python | C

Web technologies — Html | Css | Js

Databases — Mongo DB | My sql

CRM platform tools — Salesforce

CERTIFICATIONS

AWS Certified Cloud Practitioner 

Microsoft Certified: Azure AI Engineer Associate 

MongoDB Certified Associate Developer 

Microsoft Certified: Azure Fundamentals 

PROFESSIONAL EXPERIENCE

Intern

IBM (Edunet foundation) 

Has successfully completed 4-week Internship, leveraging SkillsBuild & IBM Cloud Platform in Emerging Technologies (AI & Cloud) from 15th July 2025 to 7th August 2025. This program was conducted by Edunet Foundation in Collaboration with AICTE

Intern

Shell india (Edunet foundation) 

Completed 4-week virtual internship on Artificial Intelligence and Data Analytics focused on Green Skills, organized by AICTE, Shell India Markets Private Limited and Edunet Foundation under Skills4Future program, from 27th October 2025 to 27th November 2025.

PROJECTS

Advanced Attendance System

- Built a full-stack **Attendance Management System** using **Node.js**, **Express.js**, and **MongoDB** for efficient attendance tracking.
- Implemented **user authentication with JWT and bcrypt**, ensuring secure login and encrypted password storage.
- Used **Mongoose** for schema design and handled **CRUD operations** for attendance data in **MongoDB Atlas**.

Nemo chat (messenger)

- Developed a real-time chat application (**NemoChat**) using **Node.js**, **Express.js**, and **MongoDB** for seamless messaging.
- Implemented **room-based chat and user authentication**, enabling users to create and join chat rooms securely.
- Utilized **Mongoose** for database modeling and efficient handling of user and message data.
- Enabled real-time communication using **Socket.io**  and integrated **dotenv**, **CORS** for configuration and API handling.
